

RE: Bill # LD1437

Letter to State Representative Nancy B. Sullivan

The author of Maine legislative bill LD1437 demonstrates the planning, preparation and delivery of said bill in the atmosphere the common good within time honored non-profit groups as within the Legal and Veterans Affairs, which in turn gives back to the community.

This work ethic is mirrored by elementary and secondary Teachers, who prepare their lesson plan in the evening hours for their students with a goal of producing achievers and contributors in our society. The author of bill LD1437 and the teacher share the common denominator of moving forward with their efforts of success in the accomplishment of assisting others for the betterment of the neighborhood.

A bill, which has gone through research and development such as LD1437 and sits in committee, must be given positive merit by such legislative group on Legal and Veterans Affairs, whereby those non-profit organizations can service the communities.

Thanking you in advance for your timely and positive movement on said bill where your constituency is made up of many active and former military service men and woman. This bill is too significant.

My peers, and I at the American Legion Post #56 in York Maine have a great sense of optimism in your favorable movement forward on said bill LD1437.

Respectfully,

Paul Amelotte
